

Dear Town of Wadena Council

April 29th 2019

I am writing this letter as I have a huge concern about our water that is coming into our family home of six which we use a good amount of water. I understand that you are known of the problem and are trying to resolve it but something needs to happen as soon as possible. I have been experiencing discolored water since I been living in this house two years ago, this house has brand new lines thru out including toilets tubs etc. My toilets are starting to be discolored, clothes are discolored, our RO filters need to be changed more than they should be, we refuse to run the jacuzzi tub as we do not want that wrecked as well. Most times I have to let the water run thru the whole house for at least 20-30 minutes till its clear which is causing my water bill to be higher than it should be. This is starting to be a concern to me as it is happening more frequently, not only it is wrecking my new house but is it even safe? I have a child with severe eczema that is hard to keep under control, this water situation is not helping it or it can also be what is contributing to it. We have seen a specialist and they have brought up a huge concern about the water that can be causing this. I really hope this problem can be solved asap before anymore issues arise.

Thank- You

Stephanie Turnbull
